FloorArt Collection

From the Forest to your Floor

ORIGINMARK™
traces our timber back to responsibly
and sustainably managed forests.

A beautiful floor shouldn't come with unanswered questions.

TRUEFEATURE EU™
champions authentic European Oak,
with real grain, real knots
and real character.

COLOURGRAIN RT™
develops extraordinary depth and tone
through advanced reactive colour
technology, working with the natural
character of the timber.

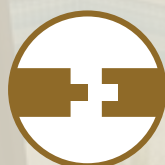

LIVINSAFE A+™
sets an exceptional benchmark for low
emissions and indoor air quality,
because you should know what
you're living on.

Your Home Your Canvas

Crafted from verified Authentic European Oak, responsibly sourced from sustainably managed forests across Europe, FloorArt brings together the natural character of European Oak with exceptional colour and contemporary design.

Our exclusive ColourGrain RT™ Technology works with the oak's natural tannins to create colour that lives within the timber, not just on the surface, revealing extraordinary depth, tonal variation and a beautifully natural appearance. This integral colouring delivers enduring beauty and consistency over time.

Each board is finished with six coats of UV-hardened, water-based coating for exceptional durability and a safer indoor environment.

Inspired by art and created for interiors with individuality, FloorArt transforms the natural grain, knots and character of European Oak into something truly unique. Exceptional colourways work in harmony with the natural canvas of the timber, ensuring no two boards and no two floors are ever exactly alike. More than a floor, FloorArt becomes a unique work of art beneath your feet, created by nature and designed to make a statement.

Where nature becomes art.
