VERO COLLECTION

True by name, True by nature

Crafted from verified authentic European Oak, responsibly sourced from sustainably managed forests across Europe, Vero brings together the natural character of European oak with a refined, timeless aesthetic.

Our exclusive ColourGrain RT™ Technology works with the oak's natural tannins to create colour that lives within the timber, not just on the surface, revealing exceptional depth, warmth and a beautifully natural appearance.

Each colour is named for its mood and the feeling it brings: Sandstone, Sage, Ethereal, Cinder, a collection of destinations and atmospheres expressed underfoot. This integral colouring delivers enduring beauty and consistency over time.
