# HELLO THERE!

My name is Lumina and I am excited to introduce myself!

I am a 9mm Hybrid Flooring Collection with a perfect combination of strength and style. With 8 contemporary and traditional colour options, I am able to create a look that reflects your unique taste.

I am made with a durable top layer, a core layer of high-density stone composite, making me hard-wearing, resistant to scratches & dents, and I am 100% waterproof. I am also super low maintenance, giving you more time to enjoy life.
